

## SUPREME SURFACE PROTECTION

- Ideal for harsh winter climates where salt and ice-melt chemicals are commonly used, or where there are repeated freeze/thaw cycles
- Penetrates, bonds and seals the concrete to provide hydrophobicity and reduce water ingress
- Resists UV, salt, mold and mildew
- No peeling, no hot tire pick-up
- Does NOT add thickness
- Does NOT make the surface glossy or change the appearance of the surface
- Horizontal and vertical
- Interior & exterior
- Ideal for residential or commercial use

### Use WaterDance to protect...
